

Harris Township 2017 Road inspections

The 2017 Road Inspections were done on May 9 and May 11. The entire board rode together and discussed the roads. This report is a summary of the road inspection made by the board; it has been compiled by Jim Kelley.

- **Underwood Road West** - Blacktop road, all surface conditions 3. Road looks good crack sealing holding up well.
- **Root Road** - Gravel road, all surface conditions 3. Gravel in ditches need to be pulled back, not much for turnaround.
- **Carol Street** - Gravel road, all roads surface conditions 3. Road looks great.
- **Underwood Road East** - Blacktop road, all road surface conditions 3. Do some brushing south side of road.
- **Wendigo Park Circle** - Gravel road, all surface conditions 3. Much needed brushing on West end, gravel needs to be moved back on road first part south end.
- **Alicia Spur** - Blacktop road all surface conditions 3. Road looks great.
- **Alicia Drive** – Blacktop Road, surface conditions longitudinal cracking 2, transverse cracking 2, rutting, alligating, loose fragmenting, potholes, sinkholes all 3. East end worse than beginning 1.5 rating.
- **Sunny Beach Addition** - Blacktop road, surface conditions 3. There is some transverse cracking, with alligating, and potholes on gravel end. It appears this road was not graded.
- **Casper Landing** - Blacktop, surface conditions 3. Look at placing a barrier on the sandy part of the boat ramp, so that the cement ramp is the one used.
- **Breezy Lane** - Gravel road, surface conditions 3. Branches by stop sign need to be removed, piles of dirt to left of stop sign need to be removed.
- **Nancy Drive** - Gravel road, surface conditions 3. Trees down on both sides of road, get bid from Plackener Tree Service to clear right away, piles of wood still sitting.
- **Romans Road** - Blacktop road, service conditions 3. Road blacktopped last summer, looks great.
- **Metzenhuber Road** - Gravel road, service conditions 3. Some piles of gravel in ditches needs to be pulled back on road, otherwise road looks good.

- **Wendigo Heights Road** - Gravel road, surface conditions 3. Road looks good
- **Bayview Place** -Gravel road, surface conditions 3. Road looks good.
- **LaPlant Public Access** -Blacktop, surface condition 3. There is some slight longitudinal cracking and transverse cracking other than that looks good.
- **Norway Road** - Gravel road, surface condition 3. Need some brushing take smaller stuff out of ditch leave buffer.
- **Robinson Road** -Blacktop road, surface conditions 3. Good shape.
- **Schmidt Road** - Gravel road, surface conditions 3. Brush on left side of road needs to be cleaned up.
- **Hughes Road** – Gravel road, surface conditions 3. Good shape.
- **Vroman Road** - Gravel road, surface conditions 3. Need some brush and trimming.
- **Jane Lane** - Gravel road, surface conditions 3. Road looks good, one small tree to be taken down in road right-of- away.
- **Bear Creek Road** - Gravel road, surface conditions 3. Couple of branches could be trimmed back, south side of road east end rutting in ditch line from someone driving off- road needs cleaned up.
- **Wagon Wheel Court Road** - Gravel road, surface conditions 3. Road looks good except for standing water in ditches.
- **Pine Landing Drive** - Blacktop road, surface conditions 3. Road looks good crack sealing holding up well.
- **Southwood Road** - Blacktop road, surface conditions 3. Some transverse cracking, crack sealing holding up well, some brushing needed on north side of road, a few spots where gravel needs to be pulled back from ditch.
- **Rough Shores Road** - Blacktop road, surface conditions 3. Road in good shape.
- **Woodbine Lane** - Blacktop road, surface conditions longitudinal cracking 2, transverse cracking 2, rutting 2, alligating 2, thinning gravel, loose or fragmented, potholes, sinkholes 3. Cul-de-sac needs gravel pushed back on road, this is a light traffic dead-end road.

- **Tolerick Road** - Blacktop road, surface conditions transverse cracking 2, alligatoring 1 this is mainly on north and Frost boils last 500 feet, sinkholes 1 this also on north end. There is some piles of dirt on right side of road at entrance to Shadywood Road
- **Stony Point Road**- Blacktop road, surface conditions 3. Brush in ditches could use some work, not sure exactly where right-of-away is.
- **Little Crystal Lane** - Blacktop road, surface conditions longitudinal cracking 2, transverse cracking 2, rutting 2, alligatoring 2, potholes at entrance to road. There are some potholes and cracks that need fixing right side has more loose blacktop than other.
- **Crystal Park** - Blacktop lot, surface conditions 3. There is one crack in parking lot need some gravel on edge of entrance.
- **Gary Drive** - Blacktop road surface condition 2. There is some cracking needs filled in a few dips.
- **Harbor Heights Road** - Blacktop road, surface condition 3 there is some new transverse cracks should be crack filled other than that road looks good.
- **Melody Road** - Blacktop road, surface condition 3. There are some cracks that have opened up, look at crack filling, one side of ditch needs to be cleaned at cul-de-sac.
- **Woodland Park Road** - Blacktop road, surface condition 3. There is some new transverse cracks, sealing has held up well.
- **Lakeview Trail** - Gravel road, surface condition rutting, potholes, thinning gravel 2. This road needs some attention, there are some soft spots down the center of the road, needs a coat of gravel and possibly recycled blacktop on hill.
- **Lakeview Drive** - Blacktop road, surface condition 3. Road looks great.
- **Mohawk Drive** - Blacktop road, surface condition 3. Road looks good
- **Winnebago Drive** - Blacktop road, surface condition 3. Road looks good.
- **Chippewa Drive** - Blacktop road, surface condition 3. Road looks good
- **Apache Drive** - Blacktop road, surface condition longitudinal and transverse cracking 3, filled in 2016. Road looks good.
- **Pine Street** - Blacktop road, surface conditions 3. Road was blacktopped in 2016, a few dead trees near cul-de-sac needs cleaned up.
- **Birch Street** - Blacktop road, surface conditions 3. Road was blacktopped in 2016, a few small transfers cracks.

- **Isleview Road** - Blacktop road, surface conditions 3. Road was blacktopped in 2016. There is some brush in ditch and trees down by fire number 21759.
- **Mishawaka Road** - Blacktop road, surface condition 3. Road holding up well, speedbump sign by fire number 21961 needs cleaned.
- **Mishawaka Landing** - Blacktop landing, surface condition 3. Take out picnic area and make more parking.
- **Mishawaka Shores Trail** – Blacktop road, surface conditions longitudinal cracking, transverse cracking, rutting, alligating 2, thinning gravel, loose and fragmented, potholes, sinkholes 3. The road shows slight signs of rutting and several spots of alligating. There is some utility work that needs to be cleaned up by contractor.
- **Sunny Lane** - Blacktop road, surface conditions longitudinal cracking, transverse cracking 2, rutting, alligating 2. There is quite a bit of rough transverse cracking, some areas of alligating is getting chewed up.
- **Hauser Road** - Gravel road, surface conditions 3. The west side of the road need some brushing.
- **Verde Lane** - Blacktop road, surface conditions longitudinal cracking 3 some on edge of road, transverse cracking 2 - 3 are bad - one is slight, everything else 3. Need some brushing by cul-de-sac.
- **Winston Taylor Road** - Gravel road, surface conditions 3. Couple logs need cleaned up in ditch.
- **Westwood Lane** - Blacktop road, surface conditions 3. Road looks good
- **Westwood Drive** - Blacktop road, surface conditions 3. Road looks good.
- **East Harris Road** - Blacktop road, surface condition 3. There is some longitudinal cracking, some brushing in ditch needed.
- **Birch Hill Drive** - Blacktop road, surface condition 3. Road looks good, there is a tree down in the ditch that should be cleaned up.
- **Key view Road** - Blacktop road, surface condition 3. Road looks good, some brushing needed in ditches.
- **Norberg Drive** - Blacktop road, surface conditions longitudinal cracking 3, transverse cracking 2 some rough, rest of conditions 3. There is a lot of brushing needed on this road.

- **River Ridge Road** - Gravel road, surface condition 3. There is dirt in ditches to be pulled back onto road, trees in ditches on right side.
- **Wendigo Park Road** - Blacktop road, surface conditions 3. There is some longitudinal cracking and transverse cracking, these are slightly worse than last year. Some of the cracking intersects with Harris Town Road.
- **Katherine Avenue** - Blacktop road, surface conditions 3. This road looks good, ditches look good.
- **Nicholas Street** - Blacktop road, surface conditions 3. This road looks good, ditches look good.
- **Sunny Beach Road - Harris to Adair** - Blacktop road, longitudinal cracking and transverse cracking 2 some of the transfers cracks are excessive, rutting, alligating, thinning gravel, loose or fragmented, potholes, sinkholes 3. There was some Tansy in the ditches on the Harris Town Road end. Some brushing also needs to be done. There was a discussion held at the Woodtick Landing. This was in reference to the culvert that crosses Sunny Beach Road. This culvert may have to be upgraded in the fall of 2017 or spring of 2018. This culvert will be monitored throughout the summer.
- **Sunny Beach Road - Adair to Wendigo Road** - Blacktop road, surface conditions 3. This road was blacktop in 2016, road looks good, shoulders and gravel holding up well. There was one soft spot that sealer was installed, it has wintered well with no change. This spot should be looked at throughout the summer. There are some trees in the ditch just before Wendigo Park Road.
- **Wesleyan Drive** - Blacktop road, surface conditions longitudinal cracking, transverse cracking, rutting 2. There needs to be some brushing on left side of road.
- **Cemetery** - Blacktop road surface conditions 1. Transverse cracking's are rough, there is some sinking. Possibly try some new grass seed.
- **Aspen Drive** - Blacktop road, surface condition 2. There is some longitudinal cracking at the beginning and middle of the road, there is some alligating at the beginning and the middle of the road as well. The ditches look fair. There is a spot at the entrance to Aspen Drive where the tar is broken up and should be patched.
- **Riverview Road** - Gravel road, surface conditions 3. Road looks good possibly some brush hog work could be done.
- **Penella Road** - Gravel road, surface conditions 3. Some discussion on vacating this road.

- **Davis Road** - Gravel road, surface conditions 2. Gravel is thinning, some discussion on board vacating this road.
- **Sunset Drive** - Gravel road, surface conditions 3. Road looks good, some brushing could be done on both sides.
- **Sunset Lane** - Gravel road, surface conditions 3. Road is in excellent shape, some brushing on first part. The corner of Sunset Lane and Sunset Drive by stop sign is holding water, should be graded to drain.
- **Forest View Trail** - Gravel road, surface conditions 3. Tree in ditch on left side needs to be removed, gravel thinning on road.
- **Pinecrest Road** - Gravel road, surface conditions 3. Road and gravel look good.
- **Jess Harry Road** - Blacktop road, surface conditions 3.
- **Field Crest Road** - Blacktop road, surface conditions 1. There is a lot of longitudinal cracking, transverse cracking, alligating some of this is falling apart. This road needs to be redone.
