## MEMORANDUM

TO: Harris Township Board

FROM: Glen D. Hodgson, PE 

DATE: May 22, 2015

RE: Road Items for May 27, 2015 Meeting  
SEH No. HARRT 132049 14.00

### Discussion Regarding 2015 Crack Sealing Project

I have spent some time looking at Township roads and thinking about bituminous crack sealing. As a place to start a discussion, I recommend that the Board include the following roads in a 2015 project:

- LaPlant Road boat landing
- Winston-Taylor Road
- Wesleyan Drive
- Underwood Road (east of Wendigo Park Road)
- Mishawaka Road

I am sure the Board recalls that when we were reclaiming roads last summer, I recommended that the 3 roads be crack sealed this summer. That is the reason that Underwood Road appears on the list. Absent, however, are the other two reclaimed roads—Lakeview Drive and Harbor Heights Road. These two are not on the list because no cracks have developed in either road. That is a (pleasant) surprise to me. I suggest we let these two roads wait another year. Perhaps we will then want to seal cracks in 2016.

I am also sure the Board remembers that Mishawaka Road was crack sealed a couple years ago. I include it on the list again because a number of new cracks have developed over the past 2 winters. I believe it would be prudent to get these cracks sealed this summer.

### Other Crack Repairs

I have been discussing crack sealing and crack repairs with a company called Bargaen, Inc. Bargaen did work in LaPrairie and in Grand Rapids last year. They have a new product called “Nuvo Gap.” It’s purpose is to fill in wider and deeper cracks that cannot be effectively treated with normal sealant. In Grand Rapids, this product was used on Airport Road just west of Lily Lake and on 8<sup>th</sup> Street SE just north of Lily Lake. Grand Rapids City Staff have told me that they are very impressed with it performance.

I would like to try this product in Harris Township. One road with wider, deeper cracks is Mishawaka Shores Trail. I think this would be a good location if we want to do a “test project.”

### Next Actions

If the Board wants to move forward, I could arrange with Bargaen to get a quotation to do this sealing and “Nuvo Gap” work.

Subject: Crack Sealing of Mishawaka Shores Trail

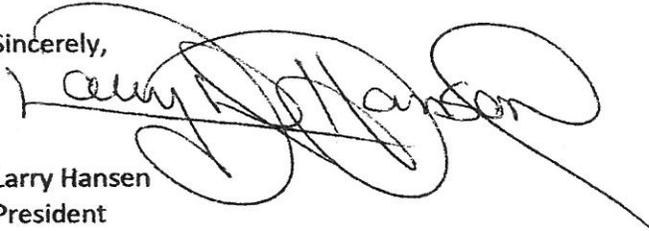

Dear Board Members:

This letter comes as a request to the Harris Township Board to give priority to crack sealing work on Mishawaka Shores Trail (MST). The past winter resulted in the reopening of a number of the cracks repaired previously by the township. These fissures will certainly deteriorate as vehicle traffic places additional stress on them, not to mention that the drive on MST is becoming increasingly rough. Performing crack sealing will, at least temporarily, forestall the deterioration of the roadway.

Close examination of MST reveals that there are an increasing number of fractures appearing in the surface that will only accelerate the deterioration as freeze/thaw cycles occur. Total resurfacing of MST must be considered at some time in the near future however, for now, we urge the Township Board to address crack sealing as a stop gap measure as soon as possible.

Thank you for your consideration in this matter.

Sincerely,

Good afternoon,

After a lot of research we went over to the County Courthouse to try and establish where exactly the cut-off would be for road right of way restrictions for these sites. Attached is a copy from the County Engineering Department stating that the R.O.W. is 50ft from the centerline of the River Road. We were also informed that as long as we were outside of the R.O.W. there weren't any regulations for burials, that she was aware of when it came to cemetery rules, according to the Zoning Department. The other is the copy of the cemetery survey map from the 1920's. Now, the cemetery map states as shown to have a 33ft R.O.W. which we are thinking was the correct statistics from that time.

Since this recording of the cemetery, the road has been shifted over towards the east and a new R.O.W. was given as 50ft, which you can see on the Engineering map. Upon measuring the cemetery blocks 1 and 10, in section 1, we came to the conclusion that all of block 1 is accessible for use and most of block 10 is accessible as well with, the exception of sites 1-4 in lot 1. The reason for that is because the fence that we have is only 6 feet away from where the edge of the block could be which doesn't give us any room to dig in the future.

Now, that being said, we are unsure where the board would want to take this set of events. Future meetings or conversations about these blocks would probably be a good idea considering the short amount of time we have to officially map everything out.

If there are any other questions just let us know.

Thank you,  
Derrick

Hi guys,

Quick question for you.

In Section 1, Block 1, my cemetery book has a hand written note accross the entire page that says "No sites sold (in this block) due to River Road and hill". Can you please confirm if *all* sites in Block 1 are indeed are unusable?

I'm asking because Block 1 sites would be in close proximity of Block 9, where half the sites sold to Don Hafar are unusable. And, if some site are actually *usable* in Block 1, we perhaps could offer those to Hafar's family in exchange for the unusable sites in Block 9...as they'd be right next door.

The board will be reviewing this issue on Wed. 4/22 so if you could let me know by then, that'd be great. Thanks for your your help!

Only 13 sites are usable yes. Looking at the map it has lots 1 and 2 only and the map is from 1926. The sites 4-8 in lot 2 and sites 1-8 in lot 3 are all that should have been sold. have attached some documents for your info.

Dear Ms. Smith:

Enclosed is a classification listing containing the results from the 2015 Land Classification Committee meeting with the parcel(s) associated with your township or municipality **AND** classified as non-conservation highlighted. The parcel(s) described in the listing forfeited to the State of Minnesota for non-payment of property taxes.

As required under M.S. 282.01, we request that you approve the parcel(s) be put forth toward auction or request a conveyance to your township for public use.

We require a certified copy of the council resolution authorizing any action taken. If you request that a parcel be conveyed to your township, you must also complete a Form 962, *Application by a Governmental Subdivision for Conveyance of Tax-Forfeited Land* and mail it to this office.

Special assessments that were levied before the forfeiture do not need to be certified to this office. They were canceled at forfeiture and will be paid from the sale price. Special assessments that are levied after the forfeiture should be certified to this office. They will be added to the appraised value and paid from the sale price as well.

Please be advised that, if the council fails to respond with sixty (60) days of the date of this letter, the classification and sale will be deemed to be approved.

If you have any questions, please feel free to contact me at (218) 327-7302 or by email at [andrew.glusica@co.itasca.mn.us](mailto:andrew.glusica@co.itasca.mn.us).
